

DECLARATION OF THE PRAIRIE REPUBLIC SOVEREIGNTY

The year is 2021. The world is in a state of surreality. Logic, reason, and truth is turned upside down, fiction turned into fact and fact into fiction. Over the past decade we have seen countless illegal attacks and invasions of sovereign countries based on lies and misinformation, all done in our name whilst mainstream media is impotent and unwilling to report truth and fact, endangering all sovereigns in the process.

In the Corporation of Canada, the farcical Westminster Act charade of party politics is being played out like a faded play, with politicians pandering to corporate agendas well beyond any mandate given to them by the Sovereigns. Left to their devices they will continue with the collective corruption of attacking and supporting the collapse of sovereign countries, with intent on provoking and instigating a potentially catastrophic world war.

At the same time, while billions upon billions of our money is spent on these illegal attacks and devoured by government debts to central banks. We are told to prepare for possible perpetual austerity and urged to keep propping up a fundamentally flawed financial system, with increased taxes in all areas.

None of this is normal, it is abnormal. It breaks all moral and natural sovereign laws of legitimate governance and is dangerous not only for the Prairie Republic, for the provinces and potentially the entire world and its sovereigns. During political events, it sometimes becomes necessary and natural for a nation to dissolve the political control that has bound it with another and to establish its own sovereignty.

It is time for the Prairie Republic sovereignty. If there was ever a time this is that time! The Prairie Republic must draw a line in the sand and take full responsibility for itself, for the sake of the future wellbeing of all its Sovereigns now and in the future.

The Prairie Republic, its military men, and women and all its Sovereigns should not be dragged into continual wars based on lies and misinformation, perpetrated by corrupt governments from inside and outside our borders.

The Prairie Republic does not need to give away its natural resources, land and taxes whilst having no control over its economy, its immigration or foreign policy. The lives and futures of the Sovereigns of the Prairie Republic or any country should not be

endangered by any corrupt, “morally” bankrupt politician or government, whoever and wherever they may be; it does not have to be this way.

For the good of all and with a justified sense of urgency, we also urge all Sovereigns to contact these so-called elected officials to stand up for what is right. Impeach any government and politician that continue to endanger all our lives and futures by committing illegal wars and a corrupt financial agenda. We also urge all our public civil servants, all employees, and the mainstream media to stand up for what is right, to challenge and expose all illegalities and wrongdoings; No one wants to, must, or deserves to live in a climate of constant fear and threat.

We have every right to live in hope and in the prosperity, liberty, and sovereignty, as sovereigns and as nations. As we support evolution and the improved accountability it has brought to the Prairie Republic within its limited powers, we believe that full Sovereignty under a written constitution is the only real, just, and accountable way for any country to exist.

It is pointless for Corporation politicians and the Prairie Republic population to keep looking to Westminster to solve its major ills, "We the Sovereigns" of the Prairie Republic hold the key to our future, security, and wellbeing. When push comes to shove no one will have the Prairie Republic's back, unless we have it ourselves.

The sovereigns and politicians of this illegal corporation must be put aside, political party partisanship for the sake of all our future security and prosperity, and to avoid future conflicts and crises. (Only we can do it and demand it).

We hereby put our faith in the Sovereigns of the Prairie Republic, to take charge of their own country and destination. To instate full self-Administrations under Prairie Republic Sovereignty as is written in our Prairie Republic Constitution.

To not accept control and authority of a corrupt government or any other proclaimed authority from inside or outside of our borders. To call for the End of the Westminster Government.

To honour our Prairie Republic Constitution (Declaration regarding Self-Governing Territories), so that all the Sovereign of the Prairie Republic and their descendants can go on to form and shape their new Sovereign Prairie Republic. Develop their future

through the ways decided upon by the Sovereigns of the Prairie Republic and no one else.

The Sovereigns call for an Executive Administration, Judiciary and Prairie Republic Treasury as part of a Sovereign Prairie Republic's Administration.

The Sovereigns call on the current devolved Alberta and Saskatchewan Corporation and Illegal Government to be superseded, succeeded, and replaced by a real independent fully Sovereign Prairie Republic administration, operating within a fully Sovereign Prairie Republic.

All of these will be answerable to the Sovereigns of the Prairie Republic. These are the natural, lawful, unalienable, and sovereign rights of the Sovereigns of the Prairie Republic to determine their own relations with other nations, for the Prairie Republic to determine its administrative, economic, and cultural life in accordance with its own needs and aspirations.

The Sovereigns call on the Prairie Republic administration to re-establish a new Judicial Law and courts system in the Prairie Republic. This will mean an end to the antiquated unlawful entities (Canada Corporation and Alberta and Saskatchewan Corporation).

A Sovereign Prairie Republic Judiciary is implemented in our Prairie Republic Constitution, Natural Sovereign Law is a lawful agreement that will transition this process to the devolved Alberta and Saskatchewan Provincial Corporation. The Sovereigns say that the Prairie Republic never entered a political union with Canada or England; the laws in the Canada Acts, that Canada adopted as new provinces, never entered Confederation in Alberta and Saskatchewan. Where only a judicial annexation and an incorporation done by the Dominion of Canada was never ratified by the Sovereigns of the Prairie Republic. The Sovereigns of the Prairie Republic call for the full and proper implementation of the Prairie Republic. (Declaration regarding Self Administrations Territories).

Which Canada, Province, has signed and that clearly requires that Canada commit to achieving full self-government to all dependent territories. Will fully assist them in the progressive development of their free political institutions and to commit to ensuring that the full political, economic, social, and cultural rights and freedoms of these territories is implemented until such time as Prairie Republic Sovereignty is accomplished.

The Prairie Republic Sovereigns call for a transferrable economic agreement whereby the full financial budget of the Corporation is transferred from the International Monetary Fund, the Bank of Canada Treasury to the Sovereign Prairie Republic Treasury. A transfer of economic reigns will allow the Sovereigns of the Prairie Republic time to invest in infrastructure and renewable energy projects, build up pensions and legacy funds so that it will be ready for complete economic freedom as is required and signed: _____, by the de-facto Canada corporation under the above mentioned Sovereign Prairie Republic Constitution “Declaration regarding Self Administrations Territories”.

The Sovereigns of the Prairie Republic call for the Prairie Republic Treasury Fund to always be accountable to the Sovereigns of the Prairie Republic. All money is given, not lent, non-repayable and interest free to the Prairie Republic Administration by the Prairie Republic Treasury Fund.

All pensions, current savings accounts, belonging to and earned by the Sovereigns of the Prairie Republic, is guaranteed by Natural Sovereign Law, and totally separated from any gambling financial sectors.

Alberta and Saskatchewan Corporation is leading the world in a carbon-based economy. The Sovereigns of the Prairie Republic will now lead the world in removing the fraud of the Green Energy Paris Accord. The Prairie Republic’s recoverable reserves of oil are, still conservatively, the largest on Earth by far, and are larger than those of Saudi Arabia and Venezuela combined, which means we have an immense resource on our doorstep.

The Prairie Republic can produce more than twice the electricity generation it needs from renewable energy alone; this will drastically increase the already existing non-renewable energy produced in the Prairie Republic when this is considered. The Prairie Republic is already more than selfsufficient in non-renewable electricity generation such as gas and coal producing 20% more than we need.

The Prairie Republic contains vast amounts of coal distributed throughout the southern Plains, Foothills, and Mountains. The Prairie Republic Energy Resources estimates there are 91 billion tonnes of coal resources at depth suitable for mining. There is an

The Prairie Republic as a nation profit fully from its own resources. (It is our Nation, our energy, our future). The Sovereign Prairie Republic to be economically and nationally strengthened and takes back control of the existing rail lines and build new rail lines and routes where needed.

The Sovereign Prairie Republic will instruct all institutions and services that serve the Sovereigns of the Prairie Republic to build and base all military veteran or rehabilitation centres for ex-servicemen and women in the Prairie Republic.

All other institutions, foundations, and societies whose prime concern is to represent the interests of the Sovereigns of the Prairie Republic and all its sovereigns must be rooted in the Prairie Republic and answerable to the Prairie Republic.

The Sovereign Prairie Republic has a long and proud military history, and we want this to continue. All Armed Forces, Air Force, Police Services and First Responders for the Prairie Republic to be under the full commitment of a sovereign administration.

The Prairie Republic military bases to be based in either existing or new bases. We do advocate and can deploy a modern flexible military for the purpose of the full defence of the Prairie Republic and its Sovereigns. In the case of the mutual protection and military defence of our neighbors we advocate a treaty of alliance between the military forces of the US Republics and all other Nations and surrounding areas. We would also advocate signing defence treaties in these nations only if they are lawful and moral.

The Prairie Republic will offer an opportunity for greater cooperation and understanding between all the countries and sovereigns of our neighboring borders. Our neighbors to the south and surrounding area who would when needed meet as equal nations in the name of friendship and mutual respect. The Prairie Republic wants to build and establish an even better and more productive relationship with all other nations of the world.

The Prairie Republic fully supports other nations that want to establish their sovereignty. All Sovereigns are created equal. Sovereignty belongs to the Sovereigns of the Prairie Republic and to all Sovereigns and not to any one Sovereign or any government based here or in another country. Anything that suggests or undermines these basic rights of fundamental natural sovereign law and sovereign liberty is not permitted.

The sovereigns of The Prairie Republic will govern their own country by putting their faith and trust into their administrators who are the administrators to the sovereigns and not the other way round.

Self-determination is an inherent right! It is not legal or sustainable for the Sovereigns of the Prairie Republic to be enslaved by the Globalist World Government and Crown that can seize and stop our lawful rights to liberty and freedom. The Sovereigns of the Prairie Republic have a duty to fight for what is best for their sovereignty, now and in the future.

The Prairie Republic sovereigns deserve administrators that will fight for what is best for the sovereigns of the Prairie Republic all the time and in all areas. This has never been the case, and we are ending this charade for the safety and well-being of ourselves and future generations of Sovereigns. The Prairie Republic has long surpassed the stage of calling for full sovereignty based solely on political, historical, or ideological differences. The Prairie Republic now recognises that its reasons and call for sovereignty are as urgent as they are many and varied: energy and water safeguarding, projected environmental change, reckless global financial agendas, illogical and unreasonable increases in local, national, and international taxes, immigration and foreign policy, and our need to defend our unique social and cultural values being obvious examples.

All the Sovereigns of the Prairie Republic invite all sovereigns and their descendants who have left Prairie Republic to return.

The Prairie Republic welcomes all sovereigns to contribute and partake in its present, its future, to fully support and recognize our sovereign rights from all sovereign nations. Only through good leadership, foresight and sensitive long-term planning can we make sure that the Prairie Republic is ready to deal with the global, economic, environmental, and political instabilities.

Controlling our natural resources, our economy and immigration. This will allow us a harmonious and well assimilated society within our economic capabilities and resources. Without full Sovereignty the Prairie Republic is drained of its powers and energy and become bankrupt and forever dependent.

Why should the Prairie Republic become a sovereign nation?

The Prairie Republic has incredible beauty and variety, immense natural and renewable resources and energy, a history of free and independent thought, strong social as well as individual values, incredible culture, and a tolerant society that produces sovereigns that contribute hugely to the world and to civilization.

We are immensely lucky to find all these values in one place and we cannot and will not take them for granted. These are values and strengths worth protecting and fighting for. If any nation in the world needs and deserves to be a modern sovereign nation, that nation is the Prairie Republic.

The Sovereigns of the Prairie Republic will acquire and control the use of property, lands, water, air, and natural resources presently controlled by the Globalist governments from beyond the Prairie Republic's borders. To protect our soil, air, waters, and rivers for our children and for the generations to come. To rightfully claim our lands, airspace and territorial waters as defined by international law which rightfully and lawfully protects our future renewable and non-renewable energies and resources within the designated territorial waters and borders of the Prairie Republic. To control and determine our own immigration policy and all other policies for the Prairie Republic. The right to fully govern ourselves for the benefit of all those living in the Prairie Republic today, tomorrow and in the future.

The Sovereigns of the Prairie Republic declare and ask all sovereigns to take part in the movement for its official implementation. Whatever your creed, race or colour, the sovereigns ask everyone to embrace a real and positive future as a free ambitious potent nation with everything to offer all sovereigns. The Sovereign's of the Prairie Republic hereby declare sovereignty and wait for its full official implementation.

The Prairie Republic

Sovereignty Forever
